

Classified Senate Reports to Board of Trustees – September 9, 2020

ARC: No report

CRC: We will be having our first Classified Senate meeting Wednesday, September 9th where we will be having the conversation of how to be an Anti-Racist campus, goals for the semester, and professional development needs from the staff.

FLC's report:

The Classified Senate completed a reorganization of Senate areas and membership this summer. The Senate will be holding an election for a new Senate position. The Classified Senate is also working with the Classified Professional Development Committee and administration to develop a classified equity workshop series this fall focused on anti-racism.

SCC: The classified senate will be meeting with the SCC's new police captain to work together. The senate is reviewing the digital inclusion workgroup's vision statement and will vote on approval next meeting. Classified members may be moving into other areas to help understaffed areas during this time, and will be working with administration to figure out how to achieve that.
