DAS Report:

With faculty off contract, official academic senate business is on hold. However, both FLC and ARC sent members to the State Senate Leadership Conference in Palm Springs last month.

Each of the colleges also has faculty representatives working with statewide colleagues on common course numbering templates for the first set of state wide common course curriculum courses.

ARC reports that senate leadership is working with ARC administration and faculty chairs to support departments who had the opportunity to hire a new full time faculty for spring but resulted in failed searches as they go out again and also try to staff classes. At the same time, senate leadership is working with our New Faculty Learning Community Coordinator to prepare for the incoming class of new faculty.

CRC – No Report

FLC – No Report – Although Eric Wada the Senate President is currently at the Statewide curriculum institute.

SCC – No Report
