CCCs face unprecedented challenges. It is critical that we:

- Recommit to student success with equity, despite Federal efforts to undermine our priorities
 - Balance local control with unified themes to effectively advocate systemwide
 - Protect and expand traditional and alternative sources of funding
 - Adapt new technologies to advance student success
-

Q6

Critical thinker and consensus builder. In 2008, a team from Rio Hondo College participated in the Microsoft Imagine Cup, a prestigious global technology competition. Dr. Shin Liu, a professor at Rio Hondo College, mentored and led the students during this competition. The college was notably the only community college in the nation to participate alongside four-year universities in the U.S. Finals for software development. In a recognition letter to Dr. Liu, Martin Schray, Microsoft's U.S. National ADE Program Director, commended Rio Hondo College for having more teams (four) at the finals than any other institution, highlighting the students' spirit, intelligence, and energy, as well as the outstanding faculty mentoring and involvement.

In 2010, two Golden West College students, Zachary McIntosh and Paul Purtell, formed a team named "Dark Wing Ducks" and advanced to the U.S. Finals of Microsoft's Imagine Cup. Competing in the Game Design category, they developed a game focused on raising awareness about ocean pollution caused by plastic waste. Their achievement was notable as they competed against teams from prestigious universities, including UCI and USC. Dr. Shin Liu, a professor at Golden West College, mentored the team and accompanied them to Washington, D.C., for the competition.

1. Protecting our students: unapologetic policies to support all students with programs they need to persist in their studies and to succeed.
 2. Protecting our funding: at the state and federal level.
 3. Protecting freedom of intellectual inquiry
 4. Build and grow CTE programs that lead to good jobs

I lead the creation of DEIA Toolkits for trustees. Encourage trustees take actions outlined in Toolkits to ensure our students have the best possible outcomes. Tirelessly educate legislators about the value Community Colleges provide as statewide economic engines. Create Toolkits with actions trustees can take to support world-class CTE programs.
