

Good evening, Trustees.

At Folsom Lake College, our Classified Senate has been busy strengthening collaboration and equity across campus.

We recently partnered with our Vice President of Administration, the Office of Institutional Research, and faculty to enhance the current prioritization process. It's been a great example of teamwork and transparency in action.

We're also working with the District Office to make sure Folsom Lake College has classified representation on districtwide committees when needed — helping to ensure our campus voice is part of broader district conversations.

Our Senate President continues to serve on the Bookstore Evaluation Committee and recently participated on the Core Equity Team with Hotep Consultants, which has been a valuable experience focused on building a more inclusive campus culture.

And finally, we're very excited to be working with our Vice President of Student Services on creating a **New Classified Institute** — a program designed to help onboard new employees and offer professional development and cross-training opportunities so staff can better understand and support all the services our college provides.

We're proud of the work being done and appreciate your continued support for classified professionals at Folsom Lake College.
