LOS RIOS COMMUNITY COLLEGE DISTRICT

REDISTRICTING PARTNERS

What is Redistricting

Definition

Redistricting is the process of adjusting district lines every 10 years after the release of the U.S. Census. The well-known examples are Congress and the legislature.

Within the U.S., redistricting has become an extremely politicized process and has been the subject of more high-profile Supreme Court decisions than any other part of our elections system.

REDISTRICTING PARTNERS

Traditional Redistricting Principles

Preventing a Redistricting from Becoming a Gerrymander

There are a number of criteria that have been used nationally and upheld by courts.

- Relatively equal size – people, not citizens
- Contiguous – districts should not hop/jump
- Keep districts compact – appearance/function
- Maintain "*communities of interest*"
- Follow city/county/local government lines

REDISTRICTING PARTNERS

Communities of Interest

Bringing like-minded people together for representation

A community of interest includes ethnic and language minorities and other groups.

Communities covered by the Voting Rights Act

- Latinos
- Asians
- African Americans

While race is a community of interest, it cannot be the *predominant factor* in drawing districts.

REDISTRICTING PARTNERS

Fair Maps Act (2019)

Preventing a Districting from Becoming a Gerrymander

Starting in 2020, cities and counties doing redistricting have additional criteria they must follow under the California Fair Maps Act. This becomes a "best practice" for all agencies.

- Process/transparency when conducting redistricting
- Not using incumbent or candidate residence as a Community of Interest
- Not drawing districts to advantage a political party

These rules do not currently apply directly to college districts, but redistricting best practices will likely push most agencies to voluntarily adopting them.
