3. REPORTS

1. **Student Leadership and Development Educators (SLADE) Group** - decision made at last slade group to cancel the Spring SLADE Retreat because there are so many new advisors. SLADE wants students to feel supported. Trying to determine if the policy says we have to host it. If we are still interested Hannah can bring it back to SLADE and see if it could be a student led retreat. Student feedback: the retreat is still effective and we should hold it. Brown Act/Parli Pro training would be effective. Possible discussions could be LRPD, Parli Pro, health services, lobby day etc.
2. **District Office** - Making progress on faculty hiring manual. Sac City just adopted revisions. Making sure hiring committees have diverse representations. Dr. Rosario will share a draft with us soon. Language is changing in the manual to require that faculty ask for student representation. Aligns with strategic plan with keeping equity in mind, and diverse representation. Melanie Dixon will have a written summary of student services issues to inform SAC. Spring theme aligns with the new hiring manual in that it will focus on equity and social justice.

2. PRESENTATION 45 min.

2.1 Gabe Ross: Disaster Communication/ Student Trustee Website

((GABE)) Dany and I talked a few weeks ago about a few topics 1. Talk about the smoke closers from last semester: No two crisis are the same. In this particular case, the smoke level were unprecedented and there is no play book. Different institutions closed at different times. There were daily (min) conversations about whether or not to close the school. There is no policy for at which level to close the school. There are real dictions that need to be looked at because closing a school can have many different effects that need to be looked at. Some of the logic of to keep the school open was because some students don't have a place to go (homeless students). If you remember at the time there was no end insight to the fire so we needed to look at not only the short-term effects, but also the long-term effects. Some may think that it was financially driven, but in fact it was not. The District received weavers for the loos of instruction time. We ultimately closed for two days of classes and a few days for the staff. Im not here to tell you that we got it perfectly right, but the diction was made in the interest of the students, not in the interest of making people happy.

((KIM)) Were students reacted out to when the decisions was being made?

((GABE)) It's hard to say because the Chancellor is not based at a school, but it is something that we should do in the future.

((KIM)) With LRPD I remember that there was a student who came to our meeting and she shared that "why she was throated of getting arrested if she did not leave campus"

((GABE)) I am not familiar with that situations. I don't know their protocols so I do not want to speak for them, but I know that the leadership tries to understand that students have many different needs. I am happy to look into that. We are starting to have conversations with regional air experts on how to handle these types of situation in the future. One of the challenges in crisis communications os trying to balance giving as much information as possible but not loosing the key message.

2. Student trustee website. We are doing a website update FLC and ARC and District.

((DANNY)) we want to update the website to have a more easily get to.

((GABE)) Maybe some homework for you all is to see what kind of content do you want to see. We want/need to be more transparent with minutes and agendas.

((BRETT)) who will administer the website?

((GABE)) Katrina is the webmaster so if there are little changes she will make them, but for pages that have a ton of changes then she can train people of how to update the website.

3. REPORTS 15 min.

3.1 Student Leadership and Development Educators (SLADE) Group:

HANNAH:: We talked last meeting about what communication is supposed to look like. For the communication, anytime something comes up (a communication to the Student Trustee) will come back to the SAC meeting then to the presidents then to the students and back to Danny. We talked in December about communication flow. For example, if there is an issue at your college bring it to the Sac meeting and find out if the same issue is being faced by other students in the district.

3.2 District Office ((ABSENT))

3.3 American River College President

We had our club day on Feb, 7th 2019. It was very successful but some students felt that the other vendors were competing. Students went to a Diversity conference in San Fran on Feb 8th and 9th. Students came from all over the nation.

3.4 Cosumnes River College President

We had a vendor fair January 28th and 29th. Monday was food truck and Tuesday was make-up vendor.

3.5 Folsom Lake College President

Hi everyone, today, Feb 13th, we had our Promote love event. Lourena did an amazing job coordinating the event with the other students. We got a lot of complements form other facially and staff that came.

3.6 Sacramento City College President

There is a lot that is going on. Club day if Feb 28th we are exited for lobby day. In response to the hate crimes last semester came together to put on an event. Each event is a different topic. There needs to be more training for LRPD for the black students on campus. We had about 100 students come to the event. there are three facilitators: A coupler, a student as MC and a facility/administrator to help take notes and general facilitating. ((OSCAR)) Can we have shared calendar. We are organizing the next campus safety day, elections will be out on the 25th.

3.7 Student Trustee Message & Report to the Board

I was elected to SSCCC. Everyone should have received the mid-term report. Please look it over and make sure everything looks good. The health committee does not meet regularly, on a case by case basis.
